EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Roger W. Blakely, Jr. on November 4, 2004.

Amend claim 5.

5. (currently amended) A four port coupling device [including] comprising a 90 degree phase shifter having ports 1, 2, 3, and 4, port 1 for receiving an input signal, and having an output appearing across ports 2 and 3 and the input appearing across ports 1 and 4,

a transmission line capacitor coupled between each port and ground,

a first transformer having a first winding connected between ports 1 and 2 and a second winding connected between ports 3 and 4, said first and second windings being coupled in phase, a second transformer having a first winding connected across port 1 and port 4 sides of said first and second windings of said first transformer [.] respectively, a second winding connected across port 2 and port 3 sides of the first and second windings of said first transformer [.] respectively, said windings of said second transformer being coupled in phase.

Allowable Subject Matter

Claims 5 – 8 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Bahl shows a 90 degree coupler with coupled windings but does not show where the windings comprise a first transformer and second transformer but rather four separate inductors not mutually coupled to each other.

Goudie shows a first and second transformer with the first and second windings of each transformer mutually with each other but merely shows a common-mode filter and not a 90 degree coupler.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dean O Takaoka whose telephone number is (571) 272-1772. The examiner can normally be reached on 8:30a - 5:00p Mon - Fri.
